Processing Information

Collections are processed to a variety of levels, depending on the work necessary to make them usable, their perceived research value, the availability of staff, and competing priorities. The library attempts to provide a basic level of preservation and access for all collections as they are acquired, and does more extensive processing of higher priority collections as time and resources permit.

This collection received a basic level of processing, including rehousing the existing binders containing slides in archival sleeves into acid-free boxes. Information included in the Description of Papers note and Collection Contents section is drawn from information supplied with the collection and available on the Artstor website. Box-level information appearing in the contents list below is based on that provided by Artstor. This information has not been verified against the contents of each binder by library staff.

This finding aid may be updated periodically to account for new acquisitions to the collection or revisions in arrangement and description.

Existence and Location of Copies

Digital scans of most of the slides found in this collection are available through [Artstor](#).
