Processing Information

Collections are processed to a variety of levels, depending on the work necessary to make them usable, their perceived research value, the availability of staff, competing priorities, and whether or not further accruals are expected. The library attempts to provide a basic level of preservation and access for all collections, and does more extensive processing of higher priority collections as time and resources permit.

The collection received preliminary processing at the time of acquisition. Further organization, rehousing, and description were carried out in 2012.

The collection is comprised of material formerly classed as: Uncat ZA MS 106, Uncat ZA MS 489, Uncat MSS 1017, and Uncat ZA File 152. Various acquisitions associated with the collection have not been merged and organized as a whole. Each acquisition is described separately in the contents list below, according to month and year of acquisition.

"So Much Depends," typescript poem (photocopy) by James Laughlin was identified as missing from the papers during 2012 processing.

Information included in the Description of Papers note and Collection Contents section is drawn from information supplied with the collection and from an initial survey of the contents. Folder titles appearing in the contents list below are often based on those provided by the creator or previous custodian. Titles have not been verified against the contents of the folders in all cases. Otherwise, folder titles are supplied by staff during basic processing.

This finding aid may be updated periodically to account for new acquisitions to the collection and/or revisions in arrangement and description.

Associated Materials

Printed material received with the collection was removed for separate cataloging and can be accessed by searching Orbis (Yale's Online Catalog).
