Processing Information

2005 and 2011 Acquisitions: The 2005 and 2011 acquisitions received a basic level of processing, including rehousing and in some instances minimal organization, at the time of acquisition. Further organization, rehousing, and description were carried out in 2013.

These acquisitions are comprised of material formerly classed as: Uncat MSS 765 and Uncat MSS 1274. Various acquisitions associated with the collection have not been merged and organized as a whole. Each acquisition is described separately in the contents list below, according to month and year of acquisition.

Description of the 2005 and 2011 acquisitions is compiled from individual preliminary lists for each acquisition that were created at or around the time of receipt by the library. The preliminary lists were migrated to comply with current archival descriptive standards and merged into a single file in 2007-2008. As part of the migration, modifications were made to the formatting of individual lists; however, the content of the lists was neither modified nor verified. Box 271 contains print-outs of original inventories of 16" x 20" photographs. These inventories contain detailed information not found in this finding aid and originate from a data export of a FileMaker Pro Database acquired with the collection.

As a rule, descriptive information found in the Collection Contents section is drawn in large part from information supplied with the collection and from an initial survey of the contents. Folder titles appearing in the contents list below are often based on those provided by the creator or previous custodian. Titles have not been verified against the contents of the folders in all cases. Otherwise, folder titles are supplied by staff during initial processing.

2018 and 2019 Acquisitions: The 2018 and 2019 acquisitions were arranged, rehoused, and described in winter/spring 2023-2024. The negatives, contact sheets, and slides that Giard housed in binders have been removed from binders and foldered. Folder titles for these materials are derived from the original binder labels. Many negatives from the 1960s-1970s are housed in original negative booklets. Most slides were removed from their original deteriorating plastic sleeves and rehoused in archival sleeves.

The 2018 acquisition was accompanied by a digital spreadsheet export of Giard's Filemaker Pro database which cross-references negatives, contact sheets, and prints of his portraits and some landscapes and sites. This spreadsheet includes negatives and contact sheets from the following subseries: Portraits, Series A, Series B, Series C, and Winifred. The spreadsheet includes prints from the following creator-imposed series: Gay and Lesbian Writers, Gay Sites, Nudes, and Portraits. Links to the Excel spreadsheet and to a Word document with instructions for interpreting the spreadsheet are included in the relevant scope and content notes for negatives and contact sheets.

Associated Materials

Printed material received with the collection was removed for separate cataloging and can be accessed by searching the library's online catalog for "From the Robert Giard Papers".

Robert Giard (1939-2002)

Robert Giard was an American photographer, born in Hartford, Connecticut in 1939. He received a Bachelor of Arts from Yale University in 1961, and Master of Arts in Comparative Literature from Boston University in 1965. In 1972 he began to take photographs, focusing on landscapes and portraits of his friends, artists, writers, and nudes. His monograph *Particular Voices: Portraits of Gay and Lesbian Writers*, published by MIT Press in 1997, contains a selection from over 500 portraits he had taken in the previous decade. In 1996, Giard was commissioned to document the 321 grant recipients of the Thanks Be To Grandmother Winifred Foundation. The grant recipients were women over the age of 54 whose projects benefitted adult women. From 1996 to 2001, Giard traveled across the U. S. to photograph each year's grant recipients. He died in 2002 of a heart attack.

November 2018 Acquisition, 1962–2018, Bulk, 1968–2002*24.11 linear feet (54 boxes)*

This acquisition contains Giard's negatives, contact sheets, slides, and professional papers.

For more information about subject names and image locations for negatives and contact sheets in the subseries Portraits, Series A, Series B, Series C, and Winifred, see Giard's image spreadsheet [linked here \(Excel download\)](#). The spreadsheet is an export of Giard's Filemaker Pro database which cross-references negatives, contact sheets, and prints of his portraits and some landscapes and sites. See also instructions for interpreting the spreadsheet [linked here \(Word download\)](#).

Purchased from Jonathan G. Silin on the Eugene G. O'Neill Memorial Fund, 2018.

This acquisition is arranged in four series: I. Contact Sheets, II. Negatives, III. Slides, IV. Professional Papers.

Series I. Contact sheetscirca
1970s-2002

This series contains contact sheets of Giard's negatives. For more information about subject names and image locations for contact sheets in the subseries Portraits, Series A, Series B, Series C, and Winifred, see Giard's image spreadsheet [linked here \(Excel download\)](#). The spreadsheet is an export of Giard's Filemaker Pro database which cross-references negatives, contact sheets, and prints of his portraits and some landscapes and sites. See also instructions for interpreting the spreadsheet [linked here \(Word download\)](#).

Some contact sheets are stored with negatives in Series II: Negatives, Miscellaneous Negatives and Color negatives with contact sheets.

Contacts sheets in folders that are labeled sequentially (i.e. 1 of 2, 2 of 2) were taken from the same binder. If there are gaps in contact sheet numbering and the missing contacts are not located in the folders of removed contact sheets, then the contacts corresponding to the missing numbers were not acquired by the library and are not present in the collection.

This series is arranged in eight subseries: Early contact sheets, Portraits, Scapes, Series A, Series B, Series C, Series G, and Winifred.

Contact sheets within each subseries are arranged in numerical order according to Giard's numbering system.

Series II. Negatives

circa
1960s-2002

This series contains Giard's negatives. For more information about subject names and image locations for negatives in the subseries Portraits, Series A, Series B, Series C, and Winifred, see Giard's image spreadsheet [linked here \(Excel download\)](#). The spreadsheet is an export of Giard's Filemaker Pro database which cross-references negatives, contact sheets, and prints of his portraits and some landscapes and sites. See also instructions for interpreting the spreadsheet [linked here \(Word download\)](#).

Included in Miscellaneous negatives, Portraits, and Series A are negatives that Giard removed from binders and placed in a safe deposit box, which are noted as "removed negatives". Removed negatives that are numbered with an identified photographer's series are foldered at the beginning of the photographer's series. Unnumbered removed negatives are in the Miscellaneous negatives subseries.

Negatives in folders that are labeled sequentially (i.e. 1 of 2, 2 of 2) were taken from the same binder. If there are gaps in negative numbering and the missing negatives are not located in the folders of removed negatives, then the negatives corresponding to the missing numbers were not acquired by the library and are not present in the collection.

This series is arranged in ten subseries: Miscellaneous negatives, Color negatives with contact sheets, Early negatives, Portraits, Scapes, Series A, Series B, Series C, Series G, and Winifred.

Miscellaneous negatives are arranged alphabetically by title and all other negatives are arranged in numerical order according to Giard's numbering system.

Miscellaneous negatives

This subseries includes removed negatives that are unnumbered and for which the photographer's series is unknown. Titles are created by the archivist and are derived from the subject of images or notes written on original enclosures.

Negatives are arranged alphabetically by title.
