CALL NUMBER: MS 1622

CREATOR: Emerson, Thomas I. (Thomas Irwin), 1907-1991

TITLE: Thomas Irwin Emerson papers

DATES: 1933-1988

BULK DATES: 1946-1976

PHYSICAL DESCRIPTION: 42 linear feet

LANGUAGE: English

SUMMARY: The papers consist of correspondence, writings, course material, legal documents, and printed material that document Thomas Emerson's career as a lawyer and law professor. The papers emphasize Emerson's teaching, writing, and organizational activities during his career at the Yale Law School from 1946 to 1976.

Thomas Irwin Emerson Papers (MS 1622). Manuscripts and Archives, Yale University Library.

Biographical / Historical

Thomas Irwin Emerson was born on July 12, 1907, in Passaic, New Jersey. He graduated from Yale College in 1928 and from the Yale Law School in 1931. Upon graduation from law school, Emerson worked for two years at the New York law firm of Engelhard, Pollak, Pitcher and Stern. In 1931, he served on the defense team in *Powell v. Alabama*, the suit that successfully overturned the convictions of the "Scottsboro Boys" and is considered a groundbreaking case in establishing a defendant's right to counsel. Emerson left the law firm in 1933 and went to work for the federal government. He spent thirteen years in Washington, D.C., working for seven government agencies during the period of President Franklin D. Roosevelt's New Deal. He began as assistant counsel for the National Recovery Administration. From there, he went to the National Labor Relations Board, the Social Security Board, the National Labor Relations Board again, the Department of Justice, and the Office of Price Administration. He completed his time as a government employee with assignments as general counsel for the Office of Economic Stabilization and the Office of War Mobilization and Reconversion. His memoirs from this period were published in 1991 in the book *Young Lawyer for the New Deal: An Insider's Memoir of the Roosevelt Years*. In 1946, Emerson joined the Yale Law School faculty. He taught at the law school until 1976. He was a popular professor among students and taught such courses as Political and Civil Rights, Constitutional Law, and Administrative Process. His publications included over one hundred articles and briefs as well as two highly regarded scholarly works, *Political and Civil Rights in the United States* with David Haber, first published in 1952, and *The System of Freedom of Expression* published in 1970.

Throughout his life, Emerson was a passionate civil libertarian. His organizational activity demonstrated the importance he assigned to the protection of civil liberties. He was active in both the American Civil Liberties Union and the New Haven Civil Liberties Council, later called the Connecticut Civil Liberties Union. He served as an advisor to the Civil Liberties Educational Foundation and as a member of the national council for the Emergency Civil Liberties Committee. He fought against repressive government legislation in the National Committee to Abolish the House Committee on Un-American Activities and the National Committee Against Repressive Legislation and opposed the Federal Loyalty Program. Emerson also defended civil liberties in the courtroom. In 1957, he argued and won a case before the Supreme Court, *Sweezy v. New Hampshire*, that reinforced the right to academic freedom. In the 1960s, he contributed to the effort to secure the release of Morton Sobell, convicted in 1951 of espionage and detained in prison past the duration of his sentence. In recognition of his defense of civil liberties, he received the inaugural American Civil Liberties Union's Medal of Liberty in 1984.

In 1965, Emerson argued before the Supreme Court in *Griswold v. Connecticut* that the Connecticut state law forbidding the use of contraceptives was unconstitutional. The Supreme Court ruled in his favor and, as part of the decision, recognized a right to privacy under the Constitution for the first time. Legal scholars consider the case the precursor to the *Roe v. Wade* decision legalizing abortion. He further demonstrated his commitment to women's rights as a member of the Permanent Commission on the Status of Women and the Connecticut Women's Educational and Legal Fund and by campaigning for the passage of the Equal Rights Amendment in the 1970s.

Emerson's organizational affiliations and defense of civil liberties during the reactionary period in the United States after World War II resulted in government surveillance. Copies of records Emerson obtained through a Freedom of Information Act request document the Federal Bureau of Investigation's observance of him between 1941 and 1977. The investigation began as series of background checks for Emerson's various government positions and intensified as a result of his involvement in the National Lawyers Guild, an organization attacked as a Communist front during the 1940s, and his co-authoring of an article in 1948 criticizing the Federal Loyalty Program. The FBI's efforts to connect him with the Communist Party included trying to place him with a Communist cell in Seattle, Washington, a city Emerson had never visited. Emerson steadfastly denied Communist Party membership and the FBI failed in its attempts to prove otherwise.

Thomas Emerson and his first wife, Bertha Paret, had three children: Joan, Robert and Luther. Later, Emerson married Ruth Calvin. Thomas Emerson died June 19, 1991, in New Haven, Connecticut.

Scope and Contents

The papers document the career of Thomas Emerson, primarily during his time as a professor at the Yale Law School from 1946 to 1976. Correspondence runs throughout the papers but is concentrated in Series I, residing in both the general correspondence section and the subject files. The subject files consist largely of collected material and detail Emerson's involvement in organizations. His activities on behalf of the American Civil Liberties Union, the Connecticut Civil Liberties Union, and the Permanent Commission on the Status of Women are among those most thoroughly documented. The subject files also contain a limited amount of material from the period Emerson spent working for the federal government from 1933 to 1946. The papers include copies of the files the Federal Bureau of Investigation kept on Emerson and large amounts of Emerson's writings and course materials. While his legal career is represented in the papers, legal documentation is not a large part of the collection. Records of *Griswold v. Connecticut* are present, but not extensive. There is no documentation of *Powell v. Alabama* or the other "Scottsboro Boys" cases in these papers.

The papers provide a comprehensive view of many of the debates over civil liberties in the United States during the twentieth century. Material within the papers details American society's ongoing struggle to define the boundaries between an individual's rights and government sovereignty in the political, social, and intellectual arenas. Emerson's involvement in the Progressive Party, support of the Equal Rights Amendment, and work on *Sweezy v. New Hampshire* are well-documented civil liberties issues within the papers, but many others are present in the subject files in Series I. On a more personal note, the Federal Bureau of Investigation files in Series II show how the FBI conducted an investigation of a suspected member of the Communist Party, the scope of the investigation, and the effect it had on the person being investigated. Emerson was one of many people to be investigated in this way by government agencies after World War II.

The Thomas Irwin Emerson Papers were processed as part of a collaborative effort between Manuscripts and Archives and the Yale Law School to document the careers and accomplishments of law school faculty and alumni.

Arrangement

Arranged in four series: I. Correspondence and Subject Files, 1933-1988. II. Personal Papers, 1937-1987. III. Writings, 1947-1987. IV. Course Materials, 1946-1983.

Collection Contents

Series I: Correspondence and Subject Files , 1933-1988

The series includes correspondence and other materials collected or created by Thomas Emerson. It begins with a chronological run of general correspondence, then is arranged alphabetically by subject using headings created by Emerson. Although general correspondence is arranged separately, correspondence relating to a specific subject remains with that subject. The correspondence, both general and subject-specific, is largely routine. Correspondents include statesman Chester Bowles, attorney Catherine Roraback, law professor Catharine MacKinnon, and law professor and president of the American Civil Liberties Union Norman Dorsen.

In addition to correspondence, materials filed under topical headings include meeting minutes, publications, and news clippings from organizations Emerson participated in or subjects of interest to him. The records on the American Civil Liberties Union, the New Haven Civil Liberties Council, the Connecticut Civil Liberties Union, and the National Committee Against Repressive Legislation chronicle Emerson's activities in defense of civil liberties. The material on the Equal Rights Amendment and the Permanent Commission on the Status of Women reveal his commitment to women's rights. Records from the National Labor Relations Board, the Office of Price Administration, and the Office of War Mobilization and Reconversion document Emerson's career in government service.

The Progressive Party records provide evidence of Emerson at his most active in an organized political party. The records include an explanation of Emerson's brief entrance into the 1948 Connecticut gubernatorial race and of his resignation from state party leadership a few years later over the national party's position on the Korean War.

The series also contains records from several legal cases in which Emerson participated. The cases include *Griswold v. Connecticut* regarding birth control, *Sweezy v. New Hampshire* regarding academic freedom, and the Sobell case in which Emerson worked for the release from prison of Morton Sobell, convicted in 1951 of espionage. The records include correspondence, notes, and copies of briefs, motions, opinions, and petitions. There is no documentation of *Powell v. Alabama* or the other "Scottsboro Boys" cases in these papers.

Series II: Personal Papers, 1937-1987

The series includes correspondence and printed material that provide general information about Thomas Emerson. The Federal Bureau of Investigation (FBI) records Emerson received as a result of a Freedom of Information Act (FOIA) request highlight the series. The FBI records, consisting largely of reports and memoranda, document the bureau's surveillance of Emerson as a suspected member of the Communist Party. The transcript from an FBI agent's interview of Emerson in volume II is the most poignant documentation of the scope of the investigation and its effect on Emerson. The FBI files are arranged in two runs, apparently the result of two distinct FOIA requests. Emerson divided the first run into volumes arranged chronologically. The second run is not divided into volumes and is arranged in only loose chronological order. Much of the second run appears to duplicate the first.

The material under the heading of loyalty investigations provides further evidence of Emerson defending himself against accusations made by the FBI and includes written statements by himself and others denying those charges. The series also includes biographical information and documentation of Emerson's sabbaticals.

b. 74, f. 1	Admission to bar	1965
b. 74, f. 2	Applications and appointments	1937-1976

Series III: Writings, 1947-1987

The series includes articles, reviews, speeches and book drafts written by Thomas Emerson. Writings are separated into two groups: Articles and shorter writings and Books. In keeping with the original order of the collection, some of Emerson's articles and shorter writings are arranged alphabetically while the majority are arranged chronologically. Materials relating to Emerson's books are arranged alphabetically by book title.

Articles and shorter writings
