<p>American Gas Association survey</p> <p>Letters and papers relating to a survey made by Thomas Sewall Adams for the American Gas Association to determine the tax burdens upon other classes of public utilities and upon industrial and commercial corporations. This material consists of correspondence, 1926-1927, mainly between H.W. Hartman, assistant manager of the Association, and Benjamin P. Whitaker, assistant to T.S. Adams in the survey, and of statistical data, dating at least as early as 1912, collected by Adams and his staff in 1926-1927. The "General Plan" filed in the first folder, indicated a geographical approach by states, and this plan has been followed in the arrangement of the papers. Material for many states was either not obtained or is not now in the papers, but it is extensive for California, Connecticut, Iowa, Illinois, Indiana, Maryland, Massachusetts, Michigan, Minnesota, Missouri, New Jersey, New York, Pennsylvania, Rhode Island, and Wisconsin, with a great deal less for Florida, Georgia, Maine, Texas, and Virginia. This consists mainly of returned questionnaires and of balance sheets and statements of earnings, 1912, 1922-1925. The State by State data are tabulated on a national basis, according to industries, in a series of 29 charts filed under Tabulation for the United States. Mr. Adams' bibliography is recorded in two small bundles of notes stapled in cardboard covers (filed in box 2).</p>
