Biographical / Historical

Stephen Evan Malawista, professor of medicine at Yale, was born in New York City and graduated from Harvard College (1954) and the College of Physicians and Surgeons, Columbia University (1958). He completed his residency training at Yale. After a brief stint in the Public Health Service, he was invited back to Yale in 1966, where he became chief of Rheumatology in the Department of Internal Medicine in 1967. As chief for 21 years, he built up the section to a major center for rheumatology. Malawista was known for his creativity in the laboratory, his observational skills as a clinician, and his wit as a colleague. His research focused on inflammation, especially neutrophils, and he made many important contributions. He developed the first screen for the prenatal diagnosis of chronic granulomatous disease. But Malawista will be especially remembered as the co-discoverer in 1975 with Allen C. Steele, of Lyme disease. In addition to his previous areas of research, Malawista continued to investigate Lyme disease through the remainder of his career. He and his colleagues researched the causal mechanisms, diagnosis, etiology, and the treatment of Lyme disease, and the prevention of Lyme disease by a vaccine. All Malawista's sabbaticals were spent in Paris collaborating with various French colleagues. Malawista received several major awards, among them the Gold Medal of the American College of Rheumatology, the Ciba-Geigy/International League Against Rheumatism Prize with Allen Steere, and the degree of Docteur Honoris Causa from the Universite de Paris.

Scope and Contents

The papers include correspondence with individuals and organizations; administrative reports of the Section of Rheumatology; Yale committee minutes and correspondence; grants and contracts whether funded or not; manuscripts of papers, both published and unpublished, including correspondence with editors, reviews, and subsequent resubmissions to the same or other journals; popular and scholarly materials collected by Malawista on Lyme disease; presentations and travels to conferences; articles/reprints; protocols; and laboratory notebooks. Restricted materials containing patient information include Malawista's correspondence with patients, clinical research, clinical trials, and most research notebooks.

b. 12, f. 23	Yale Patent Policy - Invention disclosure concerning cryopreservable cytoplasts Malawista proposed to patent "Two types of cryopreservable cytoplasts from human polymorphonuclear leukocytes (PMN) that maintain motile, phagocytic, and microbial function." He submitted an Invention Disclosure form to Yale but was informed by Robert Bickerton of the Office of Cooperative Research that the invention was not patentable "in its present stage of development."	1987
b. 12, f. 24	Yale University Office of Cooperative Research concerning rights in Malawista's inventions, OCR142 and OCR791 Malawista's further attempt to patent his invention (OCR 142) was declined by the Yale OCR and, at Malawista's request, the invention was released to him to patent and commercialize as he pleased, on condition that Yale received a portion of net income. The correspondence also concerns a second invention, "Antibody for the Detection of Gamma Related Proteins" (OCR791). Yale offered to release this invention to Malawista also.	2000-2001

Subseries 2: Section of Rheumatology, Department of Internal Medicine

	Annual Reports of the Section of Rheumatology These are annual reports of the Section of Rheumatology to the Department of Internal Medicine. For most of these reports, Malawista was serving as chief of the section. Early reports contain names of faculty, clinical staff, postdoctoral fellows, promotions, forthcoming appointments, terminations, current educational program, research in progress, and publications. Later reports became increasingly more elaborate and included clinical activity, program grants, educational activities, community activities, goals, and individual reports of each faculty member. The section grew under Malawista's leadership.	1974-1996

Subseries 7: Sabbaticals from Yale

Malawista spent every sabbatical he was granted as well as triennial leaves in Paris collaborating with various French colleagues, especially Anne Chevance. These folders contain arrangements for his leaves from Yale and sometimes correspondence with Yale laboratory colleagues during his leave. Research notes from some of his sabbaticals can be found in Series 11.

b. 17, f. 1	Sabbatical, Paris, 1973-1974 Malawista spent his first sabbatical in 1971-1972 at the Centre de Genetique Moleculaire under Boris Ephrussi. This folder contains only a postcard from Paris announcing his return to New Haven (stamp removed prior to donation). More information might be found in Series 2, Correspondence, under Boris Ephrussi.	1973 July
b. 17, f. 2	Sabbatical, Paris, 1979-1980, preparation This sabbatical, the best documented, was spent at the Institut de Pathologie Cellulaire, Kremlin-Bicetre, under Marcel Bessis. The folder contains correspondence arranging for the sabbatical including Malawista's letter to Bessis asking to work in his laboratory.	1978-1979
b. 17, f. 3	Sabbatical, Paris This folder contains primarily correspondence with the Rheumatology Section, especially with Wanda Prinz, section secretary, when Malawista was away in Paris. He sent her tapes to transcribe, and listed matters to take care of, and she forwarded correspondence sent to the Section. Various Yale matters were discussed.	1979-1980
b. 17, f. 4	Sabbatical, Paris, 1979-1980: Paper presented by Malawista and report of the Institut de Pathologie Cellulaire for 1977-1980 Malawista's paper was "L'Arthrite de Lyme: Un modele humain de la polyarthrite rhumatoide."	
b. 17, f. 5	Sabbatical, Paris, 1987-1988 Malawista spent this sabbatical at the Institut Pasteur. The folder contains mainly correspondence in preparation for his leave, and on his funding by a Fogarty International Center grant.	1985-1988
b. 17, f. 6	Travel to Paris, 1991 January 13-February 1 He planned to work at Institut Pasteur and the Hospital Salpetriere,	1990-1991
b. 17, f. 7	Short term travel requests to go to Paris	1992-1993
b. 17, f. 8	Sabbatical, Paris, 1994-1995 This sabbatical was spent at the Centre d'Ecologie Cellulaire, Hopital de la Salpetriere, working with Anne Chevance and others.

Series IV: Submission of manuscripts for publication

These files correspond with numbered entries in Malawista's Curriculum Vitae. See Box 1 for his CVs. His 2012 CV is also attached to this finding aid. Full citations have been copied and slightly rearranged from Malawista's CV. Early citations may not include end pages because Malawista and PubMed did not include them.

Files may include correspondence with journal editors and coauthors, peer reviews of his submissions, Malawista's responses to reviews, comments of Yale faculty, drafts, notes, photographs, and diagrams. In many cases the initial submission was rejected or required revision. Often rejected manuscripts would be sent to one or more other journals. See also Subseries 3, "Manuscripts not published or not included in list of publications."

b. 18, f. 1	Articles 4 Seegmiller, J.E., Howell, R.R. and Malawista, S.E. "The inflammatory reaction to sodium urate: its possible relationship to the genesis of acute gouty arthritis," <i>J.A.M.A.</i> 180: 469, 1962. Correspondence with J. E. Seegmiller, 1962-1963 and a reprint of the article.	1962
b. 18, f. 2	Articles 5 Zannoni, V.G., Jacoby, G.A., Jr., Malawista, S.E. and La Du, B.N. "The effect of folic acid on tyrosine metabolism in guinea pigs," <i>J. Biol. Chem.</i> 237:3506, 1962.	1962
b. 18, f. 3	Articles 7a Malawista, S.E., and Seegmiller, J.E. "The inflammatory response to injected microcrystalline monosodium urate in man: The effect of pretreatment with colchicine," sent to the <i>Journal of Clinical Investigation</i> , but rejected on July 31, 1964. Includes correspondence, 1964, reviews, drafts, notes, photographs.	1964
b. 18, f. 4	Articles 7b Malawista, S.E. and Seegmiller, J.E. "The effect of pretreatment with colchicine on the inflammatory response to injected urate. A model for gouty inflammation," <i>Ann. Int. Med.</i> 62: 648, 1965. Correspondence, 1964-1965, reviewer's report, drafts.	1964
b. 18, f. 5	Articles 8 Malawista, S.E. "On the action of colchicine. The melanocyte model," <i>J. Exp. Med.</i> 122:361-384, 1965. Correspondence, 1965, drafts, notes, and a notice of the article in JAMA.	1965

b. 18, f. 6	Articles 9 Malawista, S.E. "The action of colchicine in acute gout," in: Conference on Gout and Purine Metabolism, Princeton Inn, Princeton, NJ Oct. 1964, A.B. Gutman, ed. <i>Arthritis Rheum.</i> 8, 752, 1965. Correspondence, 1964-1965, materials on conference, drafts, notes, photographs.	1965
b. 18, f. 7	Articles 10 (Restricted) Malawista, S.E., Seegmiller, J.E., Hathaway, B.E. and Sokoloff, L. "Sacroiliac gout," <i>J.A.M.A.</i> 194:954, 1965. Correspondence, 1964-1966, drafts, patient records.	1965
b. 18, f. 8	Articles 11 Malawista, S.E., Asterita, H. and Marsland, D. "Potentiation of the colchicine effect on frog melanocytes by high hydrostatic pressure," <i>J. Cell Physiol.</i> 68:13, 1966. Correspondence, 1965-1966, review, comments by others at Yale, drafts, photographs, notes.	1966
b. 18, f. 9	Articles 12a Malawista, S.E. and Bodel, Phyllis T. "The dissociation by colchicine of phagocytosis from increased oxygen consumption in human leukocytes," rejected by the <i>Journal of Experimental Medicine</i> . The manuscript was then sent to the <i>British Journal of Experimental Pathology</i> which also rejected it. Folder contains correspondence, 1965-1966, and a copy of the paper.	1966
b. 19, f. 1	Articles 12b Malawista, S.E. and Bodel, Phyllis .T. "The dissociation by colchicine of phagocytosis from increased oxygen consumption in human leukocytes," <i>J. Clin. Invest.</i> 46[5]: 786-796, May 1967. After the previous rejection (Articles 12a), the paper was then submitted to the <i>Journal of Clinical Investigation</i> on April 18, 1966. It was rejected in its current form on June 17, 1966 and resubmitted. A paper on the subject was presented by Malawista and Bodel at The Society for Clinical Investigation, Atlantic City, New Jersey, May 2, 1966. Folder contains correspondence, 1966-1967, reviews, drafts, photographs, notes, the program of the meeting, drafts of the paper, a request from <i>JAMA</i> to abstract it, and a copy of the published abstract (<i>JAMA</i> 200[9], May 29, 1967: 166).	1966
b. 19, f. 2	Articles 13 Malawista, S.E. and Bensch, Klaus G. "Human polymorphonuclear leukocytes: Demonstration of microtubules and effect of colchicine," <i>Science</i> 156:521, 1967. This article was initially sent to <i>Nature</i> but rejected by the editor. It was resubmitted to <i>Science</i> , sent to reviewers and published. Correspondence, 1966-1967, drafts, photograph.	1967

b. 22, f. 3	Articles 41 Wright, Daniel G. and Malawista, S.E. "Mobilization and extra-cellular release of granular enzymes from human leukocytes during phagocytosis: Inhibition by colchicine and cortisol but not by salicylates," <i>Arthritis Rheum.</i> 16: 749, 1973. Correspondence, 1972-1973, reviews (accepted with revision), drafts, photographs.	1973
b. 22, f. 4	Articles 43 Cannarozzi, Nicholas A. and Malawista, S.E. "Phagocytosis by human blood leukocytes measured by the uptake of I131-labelled human serum albumin: Inhibitory and stimulatory effects of cytochalasin B," <i>Yale J. Biol. Med.</i> 46: 177, 1973. This paper was submitted to the <i>Journal of Cell Biology</i> in June 1972, which reviewed it and was only willing to publish a brief note. Next it was submitted to the <i>Journal of Experimental Medicine</i> in September 1972, which rejected it without review. The paper was finally submitted to <i>Yale Journal of Biology and Medicine</i> in November 1972 and published in 1973. Folder contains correspondence, 1972-1973, reviews, drafts, notes, photographs, and a relevant reprint by Yi-Han Chang.	1973
b. 22, f. 5	Articles 44 Malawista, S.E. "Microtubules and the mobilization of lysosomes in phagocytizing human leukocytes," in: Conference on the Biology of Cytoplasmic Microtubules. <i>Ann. NY Acad. Sci.</i> 253:738, 1975 Drafts, photographs, photocopy of publication, research notes.	1974
b. 22, f. 6	Articles 45 Chang, Y.H. and Malawista, S.E. "Mechanism of action of colchicine: IV. The failure of non-leukopenic doses of colchicine to suppress urate crystal-induced canine joint inflammation," <i>Inflammation</i> :143, 1976. Correspondence, 1973-1975, drafts, photographs.	1975
b. 22, f. 7	Articles 46a Malawista, S.E., Sato, H. and Creasey, W.A. "Dissociation of the mitotic spindle in oocytes exposed to griseofulvin and vinblastine," <i>Exp. Cell Res.</i> 99: 193, 1976. This paper was rejected by <i>Journal of Cell Biology</i> and then submitted to <i>Experimental Cell Research</i> . Correspondence, 1970-1976, reviewers' comments, drafts, research notes.	1976

b. 23, f. 1	Articles 46b Malawista, S.E., Sato, H. and Creasey, W.A. "Dissociation of the mitotic spindle in oocytes exposed to griseofulvin and vinblastine," <i>Exp. Cell Res.</i> 99: 193, 1976. This paper was reduced by the request of <i>Experimental Cell Research</i> to a brief note Correspondence, 1970-1976, reviewers' comments, drafts, research notes.	1976
b. 23, f. 2	Articles 47 Mitchell, M.S., Gifford, R.H., Bertino, J.R., Kenney, J.D. and Malawista, S.E. "The treatment of disseminated vasculitis with methotrexate," <i>Inflammation</i> 1: 185-195, 1976. This paper was initially sent to <i>Arthritis and Rheumatism</i> and was rejected. Includes correspondence, 1970-1976, reviewers' comments, drafts, and photographs.	1976
b. 23, f. 3	Articles 48a Alan Steere, S.E. Malawista, David R. Snyderman, Robert E. Shope, Warren A. Andiman, Martin R. Ross, and Frances M. Steele, "Lyme Arthritis: An epidemic of oligoarticular arthritis in children and adults in three Connecticut communities," submitted to <i>NEJM</i> and rejected. This was to be the first published research paper on Lyme disease. The paper was rejected in part for internal reasons, but also because the observations had been publicized elsewhere. The editor wrote, "Under such conditions the Journal is apt to consider the material as already published." Correspondence with Franz J. Ingelfinger, editor of <i>NEJM</i> , June-August 1976, reviews, drafts of response, drafts of paper, Yale announcement to press, December 12, 1976, earlier talk on "Lyme arthritis," and copy of announcement of "Lyme arthritis," in the <i>Medical Tribune</i> , July 21, 1976.	1977
b. 23, f. 4	Articles 48b Steere, A.C., Malawista, S.E., Snyderman, D.R., Shope, R.E., Andiman, W. A., Ross, M.R., and Steele, F.M. "Lyme arthritis. An epidemic of oligoarticular arthritis in children and adults in three Connecticut communities," <i>Arthritis Rheum.</i> 20:7-17, 1977. First paper on Lyme Disease. Subseries 2: Reviews

This is a category in Malawista's CV for published articles that are not original research, but rather summarize what is known on a topic. Under reviews are the many chapters Malawista wrote for textbooks. Folders are keyed to the numbering in Malawista's 2012 CV. See Box 1, Folder 1, or version of CV attached to this collection.

b. 38, f. 1	S.E. Malawista and A.C. Steere, paper on three cases of erythema chronica migrans The paper on three cases of the condition in Americans who had visited Europe was rejected by <i>Annals of Internal Medicine</i> , but Steere and Malawista were asked instead to work with a dermatologist "to prepare an editorial note that would call attention to the emergence of erythema chronicum migrans as a 'new' problem." The association of the skin lesion with Lyme arthritis would be part of the editorial note. Folder contains just the rejection letter from Edward Huth, M.D., editor of the journal.	1976 December 30
b. 38, f. 2	S.E. Malawista and A.C. Steere, "Viral Arthritis," probably for <i>Textbook of Rheumatology</i> (1981) The folder contains the table of contents for "Textbook of Rheumatology" and drafts of the article, some dated 1978. The article was probably published in <i>Textbook of Rheumatology</i> , 1st ed., ed. William N. Kelley et al. Philadelphia: W.B. Saunders, 1981. Not in Malawista's CV.	1978
b. 38, f. 3	Invitation to write a review on Lyme arthritis, not submitted Malawista was asked to write a review article on Lyme arthritis for the <i>Bulletin on the Rheumatic Diseases</i> in 1979. He agreed to do it but wanted to delay for a year. There is no article in this journal in Malawista's CV. File contains correspondence only.	1979-1982

Montgomery, was submitted to <i>Infection and Immunity</i> and rejected. The authors responded to the reviews, but the article was still not accepted.	2002-2003

Series V: Grant and contract proposals

Folders contain proposals submitted to funding agencies, and possibly some correspondence with research colleagues, the Yale administration, and the granting agency. Grant proposals may contain Social Security numbers and salaries.

Subseries 1: Major NIH grants: NIH R01 AR10493: "Biophysical Mechanisms in Leukocytes and Melanocytes"

"Biophysical Mechanisms in Leukocytes and Melanocytes," was Stephen Malawista's main grant from the National Institutes of Health. It lasted under the same title for over 35 years until Malawista closed it out in 2008.

This subseries is missing the original grant proposal but does include non-competitive continuations, renewals, requests for changes, correspondence with NIH officials, and related materials from 1975 to 2008. The number following R01 AR10493 corresponds to the number of years the grant was held.

b. 39, f. 1	NIH R01 AM10493 A renewal application. The original grant proposal has not been found.	1976
b. 39, f. 2	NIH 2 R01 AM10493-17 Competitive renewal.	1982
b. 39, f. 3	NIH 2 R01 AM10493-18	1983

Subseries 2: Major NIH grants: NIH: R01 AR40452: "Pathogenesis of Lyme Disease: Molecular Probes"		
5-year award in which Malawista served as Principal Investigator and Ruth Montgomery as Co-Investigator.		
b. 41, f. 5	NIH: R01 AR40452	1989
b. 41, f. 6	NIH: R01 AR40452	1989-1990
b. 41, f. 7	NIH: R01 AR40452	1991-1993
b. 41, f. 8	NIH: R01 AR40452	1994-1996
Subseries 3: Major NIH grants: NIH R01 A143558: "Lyme Disease: Host Parasite Interactions Affecting Disease Persistence"		
Original proposal for a five-year award. Dr. Ruth Montgomery would be working 45% time on it.		
b. 41, f. 9	NIH R01 A143558	1998
b. 41, f. 10	NIH 5 R01 AI43558-02	1999-2000
b. 41, f. 11	NIH 5 R01 AI43558-03	2000
b. 41, f. 12	NIH 5 R01 AI43558-04	2001
b. 41, f. 13	NIH 5 R01 A143558-05, Ruth Montgomery, Acting P.I.	2002-2003

	Subseries 4: Major NIH grants: NIH R21 AR003457: "Resolution of Gouty Inflammation"	2005-2008
	The R21 type grant was an "Exploratory/Developmental Research Grant." Malawista was the P.I., Ruth Montgomery also worked on the grant, and Charles Serhan of Harvard was a consultant.	
b. 41, f. 14	NIH R21 AR003457	2005
b. 41, f. 15	NIH R21 AR003457 (revised)	2006

b. 41, f. 17	NIH R21 AR053457-02	2008
	Subseries 5: Major NIH grants: NIH Program Project Grant: 1 P01 AI39548, "Lyme Disease: Pathogenesis and Protection," Stephen W. Barthold, P.I.	1990-1998
	This was a 5-year Program Project Grant on Lyme disease in which many Yale physicians and scientists collaborated. Stephen Barthold, DVM, PhD, was in the Section of Comparative Medicine at Yale. Malawista was P.I. of the second project of the grant, "Host-Parasite Interactions that Determine the Rate of <i>B. burgdorferi</i> in vivo." The grant was awarded in 1991.	
b. 42, f. 1	NIH Program Project Grant, "Lyme Disease; Pathogenesis and Protection," Fred Kantor, P. I.	1990 January
	Initial application for this large grant with several parts, each with its own principal investigator. Malawista was to be in charge of Project #2, "Probes for <i>B. burgdorferi</i> DNA in Ticks, Mice and Men." This version of the proposal was presumably not approved. The 1991 proposal with Stephen Barthold as P.I. did receive funding for five years.	
b. 42, f. 2	NIH 1 P01 AI30548, "Lyme Disease; Pathogenesis and Protection," Stephen Barthold, P.I.	1990 October
b. 42, f. 3	NIH 1 P01 AI30548-01A1	1991
b. 42, f. 4	NIH 5 P01 AI30548-02	1992
b. 42, f. 5	NIH 5 P01 AI30548-03	1993
b. 42, f. 6	NIH 1 P01 AI30548	1994
	This is a much expanded renewal application consisting of "five interactive projects and three supporting cores." The request was for over 7 million dollars.	
b. 42, f. 7	NIH 1 P01 AI30548	1995
	Another attempt at renewal.	
b. 42, f. 8	NIH P01 A130548, Request for a bridge grant	1998
	Subseries 6: Other NIH and federal grant proposals	
	These are shorter grants or fellowships, or proposals that were not funded.	
b. 43, f. 1	NIH Research Career Development Award	1968
	Request of William L. Nusser to Alvan Feinstein at Yale to comment upon the application on behalf of Stephen Malawista for a Research Career Development Award, and Feinstein's extremely positive response.	

Subseries 6: Other NIH and federal grant proposals (continued)

b. 43, f. 2	NIH: Rheumatology Training Grant proposal The purpose of the grant was to provide a comprehensive two-year post-residency training program for four selected post-doctoral trainees.	1970
b. 43, f. 3	NIH: 1R01 CA 16345-01 "Control of Cellular Differentiation: Tumor Cell Hybrids," not funded	1973-1974
b. 43, f. 4	NIH: Connecticut Regional Medical Program, "Yale Affiliated Arthritis Program," not funded The NIH-funded Connecticut Regional Medical Center had money "earmarked" for arthritis. Yale's proposal was not funded.	1974
b. 43, f. 5	NIH Training Grant: "Training Program in Investigative Rheumatology," not funded This was a 5-year proposal (1975-1980) to train postdoctoral fellows. It was not funded.	1975
b. 43, f. 6	NIH Program Grant: "Molecular Physiology and Pathology of Lysosomes," S.E. Malawista, P. Greengard, and J. Rosenbaum, not funded	1975
b. 43, f. 7	NIH: CA-17207 "Control of Cellular Differentiation: Tumor Cell Hybrids," not funded	1975
b. 43, f. 8	NIH: "Yale Arthritis Center," Leo M. Cooney, Jr., P.I., not funded This was a large proposal in response to the National Institute of Arthritis, Metabolism, and Digestive Diseases' plan to establish Multipurpose Arthritis Centers at universities. Folder also includes correspondence of Malawista with members of the Senate and House of Representatives in Connecticut about the proposal. Yale's proposal was not funded.	1976-1977
b. 43, f. 9	NIH: 2 R01 AM 20358-02S1 GMA, "Lyme Arthritis: A New Epidemic Disease (Supplement)," Allen C. Steere P.I. Malawista was one of a number of investigators on this proposal. The supplementary proposal was rejected. This collection does not contain the original proposal.	1978-1979
b. 43, f. 10	NIH: Senior International Fellowship Proposal to work during a sabbatical in Paris under the sponsorship of Dr. Mary C. Weiss. The title of the proposal is "Molecular Genetics of Liver-Specific Gene Expression." Malawista received the award for 1987-1988.	1986
b. 43, f. 11	NIH: "Protective Epitopes Important in Lyme Borreliosis," Fred S. Kantor, P.I. This grant was not funded but it probably served as a precursor to the Program Project Grant, "Lyme Disease: Pathogenesis and Protection."	1989
b. 44, f. 1	NIH Training Grant: "Training Program in Investigative Rheumatology," not funded	1989
b. 44, f. 2	NIH: "Multi-Locus Molecular Detection of Borrelia burgdorferi," David H. Persing, P.I. Malawista was one of several co-investigators on this proposal by David H. Persing, M.D., Ph.D. of the Mayo Foundation.	1991

Subseries 6: Other NIH and federal grant proposals (continued)

b. 44, f. 3	NIH: "Molecular Diagnosis and Monitoring of Lyme Disease," David H. Persing, P.I. Malawista was one of several Co-investigators in this proposal.	1991
b. 44, f. 4	NIH: "Serologic Diagnosis of Lyme Disease Using Recombinant Borrelia burgdorferi Antigens," P.I. Daniel Rahn In this proposal, Malawista would be an unpaid consultant.	1991
b. 44, f. 5	NIH Fogarty Senior International Fellowship: "Motile Function of Human Neutrophils and Cytoplasts" Malawista received this award for his sabbatical in Paris in 1994-1995.	1993-1996
b. 44, f. 6	NIH: "Interactions of Phagocytes with B. burgdorferi in Mice" R01 five-year proposal in which Malawista, the P.I., would spend 20% of his time and Ruth Montgomery would spend 90% of her time. Other investigators were Stephen W. Barthold, and Keith A. Joyner, all at Yale University School of Medicine.	1994
b. 44, f. 7	CDC: "Effect of Tick Saliva on Phagocyte Motility and Function," Ruth Montgomery, P.I. Malawista was to be an investigator on this grant and would be paid 5% of his salary from it. The application appears to be in response to the Center for Disease Control announcement number 800. The folder also contains a proposal to the Arthritis Foundation for a grant with the same title.	1997
b. 44, f. 8	NIH Training Grant: "Training in Investigative Rheumatology, Joseph Craft, P.I. The NIH-sponsored training program in investigative rheumatology was begun in 1976. It trained both M.D.s and Ph.D.s in an area "that focuses upon the mechanisms of rheumatologic and immunologic diseases." Malawista was one of 21 collaborators.	2000
b. 44, f. 9	NIH AR04-06 "Endogenous and Therapeutic Control of Gouty Inflammation" Folder includes a companion grant under the same title by Paul Naccache, University of Laval, France.	2004
b. 44, f. 10	NIH: R21 "Lipid-derived Regulators of Chemotaxis in Human Plasma" Malawista would be P.I., Ruth Montgomery, investigator, and Charles Serhan, Harvard University, consultant.	2005
b. 44, f. 11	NIH: Resubmission of R21 "Lipid-derived Regulators of Chemotaxis in Human Plasma"	2006
b. 45, f. 1	NIH: Resubmission of R21 "Lipid-derived Regulators of Chemotaxis in Human Plasma"	2007

Subseries 6: Other NIH and federal grant proposals (continued)

b. 45, f. 2	<p>NIH: N01-AI-50031, "Toll-Like Receptor Responsiveness in the Elderly and Immunosuppressed, Erol Fikrig, P.I.</p> <p>This was to be a large multi-investigator project involving Malawista and Ruth Montgomery, among others. The proposal was "in response to the announcement of a contract to address immune function and biodefense in immunocompromised patients groups." This proposal was called by Malawista the "Biodefense Contract." It would especially concern West Nile Virus.</p> <p>The folder contains materials on planning for the application, including IRB approval, but not the proposal itself.</p>	2005
b. 45, f. 3	<p>NIH: Pilot Feasibility Study as part of the Yale Skin Disease Research Core Center</p> <p>The Yale Disease Research Core Center, sponsored by NIH, was under Dr. Robert E. Tigelaar, Professor of Dermatology and Immunobiology at Yale. Malawista's proposal, "Modulation of the Inflammatory Response in Human Plasma," was sent to NIH in both 2005 and 2006 and was a small grant for \$25,000 in direct costs to work with Tigelaar. It may not have been funded.</p>	2005-2006
b. 45, f. 4	<p>NIH Pioneer Award: "A New Therapeutic Blood Component: Cryopreservable Neutrophil Surrogates"</p>	2007
b. 45, f. 5	<p>NIH Pioneer Award: "A New Therapeutic Blood Component: Cryopreservable Neutrophil Surrogates"</p> <p>Presumably another attempt to get this award.</p>	2008
b. 45, f. 6	<p>NIH: "Acute Inflammation by Human Neutrophils in Human Skin Xenografts"</p> <p>This is another effort to work on the functions of neutrophils in the skin, taking advantage of the Yale Skin Disease Research Core.</p>	2007

b. 45, f. 8	<p>NIH: "Ambivalent Association of Human Neutrophils with Urate Crystals"</p>	2009

Subseries 7: Arthritis Foundation

Next to NIH, the Arthritis Foundation was a major source of funding for Malawista and for students that Malawista was mentoring.

b. 45, f. 9	<p>Arthritis Foundation: Arthritis Clinical Research Center</p> <p>The original proposal asked for \$69,593 for two years, 1969 to 1971. Among those supported in part by this proposal were Drs. Robert Gifford and James D. Kenney. The Arthritis Foundation approved \$12,000 for one year. Malawista noted that he had previously received grants from the Arthritis Foundation and its Connecticut Chapter.</p>	1969
b. 45, f. 10	<p>Arthritis Foundation: "Lyme Disease: Molecular Probes for Pathogenesis and Diagnosis"</p> <p>This proposal was funded for three years beginning in 1990.</p>	1989-1992
b. 45, f. 11	<p>Arthritis Foundation: "Cellular interactions of the agent for Lyme disease, <i>Borrelia burgdorferi</i>," Ruth Montgomery, P.I.</p> <p>Two successive proposals under the same title in 1990 and 1991. Malawista was to act as supervisor on the proposal. See following folder for more on the proposals.</p>	

Subseries 7: Arthritis Foundation (continued)

b. 45, f. 12	Arthritis Foundation: Correspondence of Malawista on grants Malawista discusses both his own proposals and grants from the Arthritis Foundation and the proposals of Ruth Montgomery (previous folder).	1990-1991
b. 45, f. 13	Arthritis Foundation; "Mechanisms that allow <i>Borrelia burgdorferi</i> to evade host defenses: diagnostic implications"	1993-1996
b. 45, f. 14	Arthritis Foundation: "Antigenic Substitution in <i>Borrelia burgdorferi</i> and Bacterial Persistence in the Mammalian Host,"	1996-1999

Subseries 8: G. Harold and Leila Y. Mathers Charitable Foundation

The G. Harold and Leila Y. Mathers Foundation was another major source of support for Malawista's work on Lyme disease. Malawista corresponded with Mr. James H. Handelman, Executive Director, Mount Kisco, New York.

b. 46, f. 1	Mathers Foundation: Richard Flavell/Stephen Malawista, Lyme diseases research Flavell and Malawista received a sizeable three-year award in 1991.	1991

Series VI: Lyme disease files, Part 1 (open)

Malawista maintained a category for material on Lyme disease, but the materials were disorganized. Materials on Lyme disease were scattered throughout his papers. This series contains papers that do not have individual patient information and therefore are open for research. The clippings, popular articles, and research articles were all collected by Malawista. The arrangement of this series is that of the archivist. Malawista's papers on Lyme disease can be found under Series 4, Submission of manuscripts for publication, and Series 10, Published articles(reprints). His presentations on Lyme disease and Yale symposia on Lyme disease are under Series 9, Talks and Travel.

	Subseries 1: Yale University news releases, drafts, and related	1976-1983
b. 48, f. 1	Yale University news releases and drafts An earlier Yale press release is found in the folder for Allen C. Steere and Malawista's first paper on Lyme disease. See Box 23, folder 3.	1976-1983
b. 48, f. 2	Yale University news releases and other publicity	1986-1993
b. 48, f. 3	Draft of an article for <i>Yale Alumni Magazine</i> The article was to appear in the June 1983 issue.	1983 May 25
b. 48, f. 4	<i>Yale Medicine</i> articles on Lyme Disease Issue of <i>Yale Medicine</i> , Spring 1996, containing Marc Wortman, "The Lyme Disease Dream Team," 1-15; Malawista's revisions on a draft of this article; issue of <i>Yale Medicine</i> , Fall 1998, containing "Lyme Disease Vaccines Prove Effective," 4.	
b. 48, f. 5	Yale-New Haven Hospital article in <i>Yale-New Haven</i> , Summer 1990 The main article on Lyme disease in this issue is Bruce Reynolds, "The tick that mad New Haven famous," pp. 7-10.	
b. 48, f. 6	SmithKline Beecham agreement with Yale to develop a vaccine for Lyme disease This folder contains a formal announcement by SmithKline Beecham and photocopies of newspaper articles resulting from the announcement. These are Malawista's copies of the announcement and articles given to him by the Yale University School of Medicine, Office of Public Information.	1992 July 22
	Subseries 2: Popular articles on Lyme disease written or corrected by Malawista These are short popular or semi-popular articles by Malawista that are not in his CV or, more often, drafts of articles that reporters or editors sent to Malawista to correct.	
b. 48, f. 7	"Lyme Arthritis" for <i>Rheumatology News</i>	1977
b. 48, f. 8	Questions for an article in the <i>Gazette</i> , "serving the Lower Connecticut River Valley" David Holahan, the managing editor, sent the questions to Marje Noyes, in the Office of Public Information at Yale School of Medicine. She sent a draft of a press release for Malawista, Allen C. Steere, and John A. Hardin to review.	1978
b. 48, f. 9	Pre-publication article for <i>Rheumatology News</i>	1978
b. 48, f. 10	News release for International Medical News Service	1979

Subseries 2: Popular articles on Lyme disease written or correct [...] (continued)

b. 48, f. 11	Jonathan A. Leonard, "Lyme Disease" for <i>Discover</i> , edited by A.C. Steere and S.E. Malawista	1980
b. 48, f. 12	Draft of <i>JAMA</i> article on Lyme disease Unedited draft sent by Phil Gundy, Senior Associate editor of <i>JAMA</i> , for review by Malawista and Steere.	1982 July 12
b. 48, f. 13	Malawista's contribution to pamphlet, "Lyme Disease" for the Connecticut Chapter of the Arthritis Foundation Correspondence, drafts, and copies of the foldout brochure on Lyme disease and its later revision. The brochure was titled <i>Lyme Disease (originally called Lyme arthritis): facts you should know about a new disease that has affected hundreds of people in Connecticut.</i> It was "prepared by the Yale School of Medicine for the Connecticut Chapter Arthritis Foundation."	1982-1983, 1986
b. 48, f. 14	Draft article on the treatment of Lyme disease for <i>Internal Medicine Digest</i> Sent by the copy editor to Malawista for accuracy and illustrations.	1984 April 27
b. 48, f. 15	Draft of "Fundamental aspects of Rheumatology," for <i>Current Rheumatology</i> The article summarizes the symposium, "Fundamental Aspects of Rheumatology," held in Stockholm, Sweden. Malawista was asked for any changes to the summary of his presentation and for illustrations.	1984
b. 48, f. 16	Article on Lyme disease for <i>Dermatology Times</i> Sent by the editors for Malawista's correction. Folder contains cover letter and Malawista's ample edits.	1988
b. 48, f. 17	"The treatment of Lyme disease," for <i>The Medical Letter</i> Malawista's note on this copy states that the article was written by Robert Schoen and himself and reviewed by Joseph Craft, Allen Steere, and [illegible].	1988 July
b. 48, f. 18	S. E. Malawista, "Statement on Lyme Disease" for ACR Malawista sent this "statement" to Shaun Ruddy, Chairman, Research Council, ACR.	1989, February 20
b. 48, f. 19	Article on Malawista's ACR talk for <i>Rheumatology News</i> Malawista was sent "a pre-publication copy of a report on your recent lecture on Lyme disease at the ACP Annual Session" for use in <i>Rheumatology News</i> . The report was to be published in February 1991.	1990
b. 48, f. 20	S.E. Malawista, "Update on Lyme Disease," American College of Physicians Two copies of typed information, possibly a handout at the American College of Physicians meeting, Chicago, April 27, 1990.	1990 April 27
b. 48, f. 21	ACR, Draft of "Policy Statement on Antibiotic Therapy for 'Possible' Lyme Disease" Daniel Rahn of Yale was one of the authors of this typescript.	ca. 1990
b. 48, f. 22	"Literature File Update" for <i>Today in Medicine</i> The format of this piece was a question and answer on "Third-generation cephalosporins in the treatment of Lyme disease." Malawista insisted that his name not be used.	1991
b. 48, f. 23	Article on Malawista's work for International Medical News Service	1991

Subseries 2: Popular articles on Lyme disease written or correct [...] (continued)

b. 48, f. 24	"The Treatment of Lyme Disease" for <i>The Medical Letter</i> Malawista was asked by the editor to review the proposed article. Folder contains correspondence, text of the draft article, and Malawista's comments on the draft.	1992 August 25
b. 48, f. 25	Bob Shope, Draft of "Lyme disease" Bob Shope, Department of Epidemiology and Public Health at Yale, asked Malawista to look over the text and help him update the 16th edition of <i>Control of Communicable Diseases in Man</i> .	1993 August 31
b. 48, f. 26	Draft of "Treatment of Lyme Disease" for <i>The Medical Letter</i>	1997 March 21
b. 48, f. 27	Article on Lyme disease for <i>Lyme Disease Research Update</i> The writer of the article thanked Malawista for his corrections and sent the revised version. The article quotes from an interview with Malawista.	1997
b. 48, f. 28	Jonathan A. Edlow, book proposal on a history of Lyme disease Correspondence of Yale University Press and Dr. Jonathan Edlow concerning the manuscript of his history of Lyme disease, originally called "Shadows in the Lymelight." On request from the press, Malawista evaluated the proposal in 1999. The book was published as <i>Bull's-eye: Unravelling the Medical Mystery of Lyme Disease</i> . New Haven: Yale University Press, 2003, 2nd ed. 2004.	1999-2002
Subseries 3: Malawista and Lyme disease -- miscellaneous		
b. 48, f. 29	Site visit to Yale by an NIH Study Section for presentations on Lyme arthritis The study section was "General Medicine A." The talks were by Malawista, Steere, Hardin, Shope, Wallis, and McCollum. Folder contains the agenda, Allen Steere's CV, and copies of maps and data.	1977 April 27
b. 48, f. 30	List of articles on Lyme disease by Allen Steere Includes a handout for Grand Rounds, 1983.	ca. 1985
b. 48, f. 31	List of articles on Lyme disease by Stephen Malawista	ca. 1993
b. 48, f. 32	Literature surveys by Malawista and Ruth Montgomery	ca. 1988-1991
b. 48, f. 33	Malawista correspondence on the Lyme Borreliosis Foundation The Lyme Borreliosis Foundation, Tolland, Connecticut, headed by Karen Vanderhoof-Forschner, was a patient advocacy group, which often differed from Lyme researchers such as Malawista. The particular subject here was a paper given by Eliot Frank, M.D., at the Fourth Annual Conference of Lyme Borreliosis, to which Vanderhoof-Forschner strongly objected and sent a letter to Frank's superior at the Jersey Shore Medical Center. Malawista wrote on behalf of Frank.	1990 July 30- August 7
b. 48, f. 34	S. 2839: "Lyme Disease Research and Education Act of 1990" This U.S. Senate bill was introduced by Connecticut Senator Joseph Lieberman.	
b. 48, f. 35	Materials for an early talk on Lyme arthritis Most of Malawista's presentations on Lyme disease can be found in Series 9, "Talks and Travels." These next folders contain materials not related to specific talks.	1970s

Subseries 3: Malawista and Lyme disease -- miscellaneous (continued)

b. 48, f. 36	Notes and slides for a talk on Lyme disease	1983
b. 48, f. 37	Lyme Disease presentation slides	circa 1988-2013
b. 46, f. 38	Miscellaneous materials Malawista used in talks These were found in multiple copies. An example is a quote from Rev. Billy Graham mentioning Lyme disease.	ca. 1989-1992
b. 48, f. 39	Lyme-related arthritis slides	circa 1990-2013
b. 48, f. 40	Numbered slides used in a talk on Lyme disease	1998 August

Subseries 4: Newspaper clippings on Lyme Disease

Clippings from the *New York Times*, *New Haven Register*, and other newspapers. Sometimes there is a note with the clipping on who sent it to Malawista. Clippings were mixed with other materials in Malawista's Lyme Disease files. Arrangement by year is by the archivist.

b. 52, f. 17	Daniel W. Rahn, Case notes on a Lyme patient Notes taken each time the named patient saw Dr. Rahn.	1989-1990
b. 53, f. 1	Research with Soren Nielsen and James B. Peters, Specialty Laboratories, Inc., on a test for Lyme disease Malawista was collaborating with Nielsen and Peters, Specialty Laboratories, Inc., Santa Monica, California, sending samples (CSF) from Lyme patients to test the ability of "PCR to permit the specific identification of B. burgdorferi DNA in fluids and tissues." Joint efforts led to an abstract: Soren L. Niesen, James B. Peter, Robert T. Schoen, Daniel W. Rahn, and Stephen E. Malawista, "B. burgdorferi Persistently Detected by PCR in Synovial Fluid of a Patient with Lyme Disease Resistant to Therapy," December 1989. Soren and Peter did not collaborate on any paper in Malawista's CV. File contains patient information.	1989-1990
b. 53, f. 2	Research with Soren Nielsen, Specialty Laboratories, Inc. Soren L. Nielson was the first author of an article "Detection of Borrelia DNA by the polymerase chain reaction," <i>Molecular and Cellular Probes</i> , 4 (1990): 73-74. Included in folder.	1990
b. 53, f. 3	"ECP Photopheresis Study" Questionnaire and patient names and data.	1989-1990
b. 53, f. 4	CETUS Corporation collaboration on Lyme disease Malawista had been in contact with Dr. Ann Begovitch on a collaboration concerning the clinical course of Lyme disease. This agreement was likely not signed.	1989-1990

Series VIII: Lyme Vaccine Study (restricted)

This study, led by Malawista working with Janine Evans, M.D., was funded by Connaught Laboratories to test a vaccine that Connaught Laboratories had developed. The official title was "Efficacy Study of a Lyme Vaccine." This is a separate study from the SmithKline Beecham vaccine study also conducted at Yale.

Subseries 1: Protocols

Protocol folders sometimes include the reporting of "adverse" events to named participants in the studies.

b. 54, f. 1	Protocol 7404 correspondence Correspondence concerning the protocol for "Efficacy Testing of Lyme Vaccine," a study in partnership with Connaught Laboratories. Included is Yale University, Human Investigations Committee, <i>Guidelines</i> (1993).	1993-1996
b. 54, f. 2	Protocol 7404 "Efficacy Testing of a Lyme Vaccine" Folder contains protocol, 1994; <i>Human Investigation Committee Guidelines</i> , 1993; and a report of an adverse reaction without the person's name.	1993-1996
b. 54, f. 3	Protocol U93-4700-03, Connaught Laboratories Protocol for "Efficacy Testing of a Lyme Vaccine" from the Connaught Laboratories' side. Also includes the "Patient Information and Consent Form," 1993, which states "The vaccine to be tested is a single purified protein of the Lyme disease bacteria, made in bacteria by recombinant DNA technology similar to the technology used to produce the Hepatitis B vaccine."	1993-1994
b. 54, f. 4	Protocol 8130 "Efficacy Study of a Lyme Disease Booster"	1995-1998
b. 54, f. 5	Protocol U93-4703-03/05, Connaught Laboratories	1998-2001
Subseries 2: Vaccine trials		
b. 54, f. 6	Lyme Disease Vaccine Study Includes <i>Yale Medical News</i> announcement of the study and correspondence with Connaught Laboratories, Inc., and Yale administrators.	1993-1994
b. 54, f. 7	Lyme Disease Vaccine Study	1995-1996
b. 54, f. 8	Lyme Disease Vaccine Study	1996-1997
b. 54, f. 9	Agreement with Pasteur Merieux Connaught USA Study titled "Safety and Immunogenicity of an Accelerated Schedule of the OspA Vaccine for Lyme Disease." The company, by then named Aventis Pasteur, Inc., informed Malawista on January 14, 2000, of its decision to stop work on the vaccine.	1998-2000
b. 54, f. 10	Correspondence with a patient who participated in the vaccine study Participant said the vaccine worked and sent a picture of his leg where the tick bit him.	2000
b. 54, f. 11	Erol Fikrig, Lyme Disease Vaccine Study This study, in which Malawista was involved, was "Immune Responses in Individuals who have Previously Received the OspA Lyme Disease Vaccine Series." Folder includes protocols.	2004-2005

Subseries 3: Expenses

b. 54, f. 12	Expenses for Lyme Vaccine Study/Marketing Includes the ways in which the study was advertised to obtain participants. Contains names of patients in the study.	1993 December-1994 February
b. 54, f. 13	Expenses for Lyme Vaccine Study/Marketing	1993 December-1994 February
b. 54, f. 14	Expenses for Lyme Vaccine Study/Marketing	1997-1999

Series IX: Talks and Travel ("T/T")

This series was maintained by Malawista's successive secretaries who created files for talks away from Yale and for professional meetings. Sometimes folders were created for events Malawista probably didn't attend. Additional material on talks and meetings was found loose in Malawista's papers and added by the archivist to "T/T." Folders may contain correspondence, programs, announcements, abstracts of papers that Malawista and his colleagues presented, texts of talks, and occasional photographs.

1950s		
b. 55, f. 1	<p>"Cirrhosis of the Liver"</p> <p>Malawista explained in a note to Gerald Klatskin at Yale in 1964 that he was an organizer of the Columbia-Presbyterian Medical History Society and had presented this historical talk in 1957.</p>	1957, 1964
1960s		
b. 55, f. 2	<p>American Society for Clinical Investigation, Atlantic City</p> <p>J. E. Seegmiller, R. Rodney Howell, and S. E. Malawista, "A Mechanism of Action of Colchicine in Acute Gouty Arthritis," presented at the American Society for Clinical Investigation, Atlantic City, April 1962. Abstract in <i>J. Clin. Invest.</i> 41: 1939, 1962.</p> <p>Drafts of abstract and paper.</p>	1962 April
b. 55, f. 3	<p>American Rheumatism Association, Chicago</p> <p>The presentation was S.E. Malawista, R. Rodney Howell and J.E. Seegmiller, "Factors Modifying the Inflammatory Response to Injected Microcrystalline Sodium Urate." Malawista notes that the presentation was "Not on program." Abstract in this folder was published in <i>Arthr. Rheum.</i> 5: 307, 1962. The folder also includes another abstract by Howell and Seegmiller; S.E. Malawista, "Discussion of paper by James S. Faires and Daniel J. McCarty, ARA meeting, Chicago, June 21, 1962; and a copy of the abstract of the paper discussed.</p>	1962 June
b. 55, f. 4	<p>Third Pan-American Congress on Rheumatic Diseases, Santiago, Chile</p> <p>"Colchicine in Acute Gouty Arthritis: Clinical and Metabolic Studies," 1963. Paper presented by Stephen Malawista on behalf of himself, R. Rodney Hopwell, and Jay Seegmiller, at the Third Pan-American Congress on Rheumatic Diseases, Santiago, Chile, October 15-19, 1963. Folder contains correspondence, 1963, paper and abstract, memorabilia, and photographs of Malawista and other participants at the Congress</p>	1963 October 15-19
b. 55, f. 5	<p>Abstract rejected for presentation by the American Society for Clinical Investigation</p> <p>S. E. Malawista, "Sols, gels, and the mechanism of action of colchicine," rejected in February 1964 for presentation at the meeting of the American Society for Clinical Investigation, 1964. Abstract published in in. <i>J. Cl. Invest.</i>, 43: 1241, 1964.</p> <p>Correspondence rejecting the abstract for presentation, and drafts. Malawista would have been introduced by Paul Beeson.</p>	1964 February

1960s (continued)

b. 55, f. 6	American Rheumatism Association S. E. Malawista, "Sols, gels and colchicine: a common formulation for the effects of colchicine in gouty inflammation and on cell division," presented at the ARA meeting on June 19, 1964. Abstract published in <i>Arthr. Rheum.</i> 7: 325, 1964. Correspondence including a letter from Alvan Feinstein to the ARA, abstract, and drafts.	1964 June 19
b. 55, f. 7	Interurban Clinical Club, New Haven Malawista's presentation at the meeting was "Mechanism of Action of Colchicine on Gouty Inflammation." Folder contains drafts and printed program of meeting.	1964 December 4
b. 55, f. 8	Presentations, Woods Hole, Mass.	1965 Summer
b. 55, f. 9	XI International Congress of Rheumatology, Mar Del Plata, Argentina S.E. Malawista and Phyllis Bodel, "Dissociation by colchicine of phagocytosis per se from increased oxygen consumption in inflammation in human leukocytes: Implications in gouty inflammation," presented at XI International Congress of Rheumatology, Mar Del Plata, Argentina, December 5-11, 1965. Abstract published in the <i>Proc. XIth Internat. Cong. of Rheum.</i> , December, 1965.	1965 December 5-11
b. 55, f. 10	XI International Congress of Rheumatology, Buenos Aires	1965 December 8
b. 55, f. 11	Dermatology Research Group, Atlantic City Malawista presented the paper he had offered to present at the American Federation for Clinical Investigation meeting. See next folder.	1966 April 30
b. 55, f. 12	American Federation for Clinical Investigation, Atlantic City Proposed paper was "Potentiation of the Colchicine Effect of Frog Melanocytes by High Hydrostatic Pressure." Paper rejected but presented at another meeting. See previous folder.	1966 May 1-4
b. 55, f. 13	Society for Clinical Investigation Malawista's paper with Phyllis T. Bodel was "Dissociation by Colchicine of Phagocytosis from Increased Consumption in Human Leucocytes." See Series 4, Articles 12a and 12b.	1966 May 2
b. 55, f. 14	Presentations, Woods Hole One presentation was Stephen E. Malawista and Hidemi Sato, "Vinblastine and griseofulvin reversibly disrupts the living mitotic spindle." Folder includes paper and photographs. See Series 4, Articles 15.	1966 Summer
b. 55, f. 15	Interplanetary Society, Oxford, England Malawista's presentation was "Colchicine, Vinblastine and Griseofulvin: Anti-Mitotic and Anti-Inflammatory Effects."	1968 March 23
b. 55, f. 16	Columbia University College of Physicians and Surgeons Malawista's paper was "Acute Gouty Arthritis and the Mechanism of Action of Colchicine."	1969 January 11

1960s (continued)

b. 55, f. 17	Arthritis Foundation: presentation by Malawista Transcript from a tape of Malawista's presentation and an undated note from Jerry Faucher of the Arthritis Foundation. Talk was on urate crystals and acute gouty arthritis.	no date (ca. 1965)
1970s		
b. 55, f. 18	"Colchicine," ARA Workshop, Detroit	1970 June 18
b. 55, f. 19	Reunion annuelle de la Societe Europeenne de Culture de Tissue, Paris Program. Malawista may not have attended.	1973 May 14
b. 55, f. 20	XIII International Congress of Rheumatology, Kyoto, Japan Malawista's abstract was "Colchicine: A Common Mechanism for its Anti-Inflammatory and Anti-Mitotic Effects." It is not clear from the folder that Malawista attended the conference.	1973 September 30-October 6
b. 55, f. 21	Conference on the Biology of Cytoplasmic Microtubules, New York Academy of Medicine Malawista was scheduled to present "Microtubules and the Mobilization of Lysosomes in Phagocytizing Human Leukocytes."	1974 May 20-23
b. 55, f. 22	Interurban Clinical Club, New Haven Malawista was on the program presenting "Effect of Colchicine on Lysosomal Mobilization During Phagocytosis." He was not yet a member of this exclusive club.	1975 April 4-5
b. 55, f. 23	Cell Motility meeting, Cold Spring Harbor	1975 September 9-14

Series X: Published articles (reprints)

When he published an article, Malawista purchased as many as 400 printed copies (reprints) of it. Reprints could often be ordered with covers or without. Malawista ordered some of each. He sent reprints in response to postcard requests, included selected reprints in grants, and brought relevant reprints to talks and meetings to give to those who were interested. Later in his career, when journals began to be published online, printed reprints were no longer as available. By 2010 the culture of trading reprints had largely ended. Reprints were found scattered in Malawista's collection. They are here organized by year and include both peer-reviewed articles and "reviews" (see CV in Box 1, Folder 1, and attached to finding aid). Reprints that Malawista received from others have not been kept except for those on Lyme disease.

Series XI: Research materials

Subseries 1: Research protocols and procedures

These protocols for research were identified by number and approved annually by the Yale University Human Investigation Committee. Protocols typically do not contain patient names, although the Lyme disease protocols in Series 8, Lyme Vaccine Study, do have reports on adverse reactions identified by study participant.

b. 73, f. 1	Protocol for a clinical trial of anti-metabolite therapy The trial was to test anti-metabolite therapy in patients with SLE nephritis. The drug to be tested as an immunosuppressive was Azathioprine ("Imuran").	1967-1968
b. 73, f. 2	Protocol 1018: "Phagocytosis and Bacterial Killing in Renal Transplant Tubules," Mary Jean Ahern, P.I. Mary Jean Ahern was a 2nd year fellow in the Infectious Disease Section of Internal Medicine. Malawista and Vincent Andriole were other investigators for this project.	1975
b. 73, f. 3	Animal protocol 2000 This folder contains mainly communications from Albert V. Jonas, D.V.M., Director of the Division of Animal Care at Yale, and also <i>Guide for the Care and Use of Laboratory Animals</i> , NIH, 1972.	1975-1980, 1984
b. 73, f. 4	Protocol 1125: "Evaluation of Epidemic Lyme Arthritis in the Lyme, Connecticut Area," Allen C. Steere, P.I. Malawista was among the other investigators for this study. A later title for the study was "Lyme Arthritis: A New Epidemic." There is one patient record by name at the end of the folder.	1975-1984
b. 73, f. 5	Draft protocol: "Treatment of Glucocorticoid Induced Osteoporosis," Howard Rasmussen, P.I. Malawista was an investigator on this protocol. The protocol is not signed or numbered.	1976
b. 73, f. 6	Protocol 5227: "Pathogenesis of Lyme Disease: Molecular Probes" This protocol relates to a grant of the same title.	1989-1994
b. 73, f. 7	Protocol 5227: "Pathogenesis of Lyme Disease: Molecular Probes"	1995-2001
b. 73, f. 8	Draft Protocol: "An Evaluation of an Immunogenetic Basis for Refractory Lyme Arthritis," Robert T. Schoen, P.I. The study would attempt to identify a genetic risk factor for chronic Lyme arthritis. Malawista appears to have been an investigator in this study. The protocol was not yet signed or given a number.	1996-1997
b. 73, f. 9	Protocol 07459: "Biophysical Mechanisms in Leukocytes and Melanocytes," This was the animal research protocol for Malawista's main NIH grant. It was resubmitted each year to the Yale Animal Care and Use Committee.	1997-2003
b. 73, f. 10	Protocol 12468: "Colchicine and Theophylline in Asthma, Geoffrey Chupp, P.I. Malawista was an investigator in this clinical study.	2001

b. 73, f. 11	"Standard procedures" The contents of this folder were removed from a three-ring binder.	ca. 1968-1970
b. 73, f. 12	"Procedures"	1973
b. 73, f. 13	Miscellaneous procedures Brief laboratory procedures including one on cryopreserved cytokineplasts.	1991-2004 and no date
b. 73, f. 14	"Stock Solutions" and miscellany The contents of this folder were removed from a three-ring binder labeled "Stock Solutions." Other materials were found inserted into the notebook. There are a few names of "donors."	1985-1987

Subseries 2: Laboratory notebooks and binders (Restricted)

These are notebooks kept in Malawista's laboratory. Most of the notebooks, except for those titled "Frog Skins," contain tests on fluids or tissues of named patients or donors. Malawista's staff often volunteered blood or other fluids for testing. The bulk of laboratory notes were entered in blank books, often purchased from the Yale Co-Operative Corporation. Other laboratory notes, overlapping in time, were maintained in three-ring binders.

Notebooks begun 1962-1970
