TITLE: Marvin H. Pope Papers

DATES: 1916-1998

PHYSICAL DESCRIPTION: 75 linear feet (157 boxes)

SUMMARY: The Marvin H. Pope Papers document the life and work of a prominent professor at Yale. Correspondence, notes, writings, course-related materials, collected materials, and audiovisual materials shed light on his academic work and his interactions with colleagues and students. Marvin H. Pope taught at Yale in the Department of Religious Studies and Divinity School from 1949 to 1986 and was one of the world's leading authorities on Ugarit. Pope made many contributions to biblical studies, which included helping to prepare the Revised Standard Version of the Bible and advising the National Council of Churches on the New Revised Standard Version. His scholarly output was prodigious, and he helped to bring the public's attention to the importance of Ugaritic texts in the study of the Bible. During his lifetime he published numerous scholarly articles and three major books, "El in the Ugaritic Texts" and two commentaries for the Anchor Bible Series: "Job" (1965) and "Songs of Songs" (1977). Pope is remembered for his wit, which made him a popular professor during his years at Yale. .
